

Noise Mitigation Package Financial Assistance Information

Auckland Airport Community Trust (AACT) is passionate about supporting communities to grow and to thrive. We believe that learning is at the heart of this and as such distribute community grants to support learning, literacy and life skills.

Under the existing Manukau District Plan, the airport is required to offer a noise mitigation package to property owners in the High Aircraft Noise Area (HANA) and Moderate Aircraft Noise Area (MANA), whose properties fall within the Annual Aircraft Noise Contours (AANC).

The subsidy offered by the airport depends on the location of the house within the AANC. New homes built after 10 December 2001 do not qualify for a subsidy. The subsidies and criteria for an offer are:

- 100% subsidy - for properties in the HANA with the airport paying the full cost of installing the noise mitigation package
- 75% subsidy - for properties in the MANA with the airport paying 75% of the cost of installing the noise mitigation package

Home owners within the MANA can apply for financial assistance from the AACT to help cover the 25% contribution they need to have a noise mitigation package installed. Applications can be made throughout the year
